**PLEASE NOTE:** Many of the problems that we are using are brand new (and not yet published by NITA). Hence, no teaching notes are available for them. In some cases, essentially the same problem existed in earlier incarnations for which there are existing (old) teaching notes. Where that is the case, the old teaching note is reproduced. In most instances, these teaching notes will be fully applicable to the new problem; however, read the teaching note with the new problem clearly in mind and if there are differences, the new problem should be followed.
