109. — (1) No person shall drive a motor vehicle at a rate of speed greater than,

(a) 80 kilometres per hour,

(i) on a highway not within a city, town, village, police village or built-up area, or

(ii) on a highway designated by the Lieutenant Governor in Council as a controlled-access highway under the Public Transportation and Highway Improvement Act, whether or not such a highway is within a city, town, village, police village or built-up area;

(b) subject to clause (a), 50 kilometres per hour on a highway within a city, town, village, police village or built-up area;

(c) the rate of speed prescribed for motor vehicles on a highway in accordance with the provisions of subsection (2), (3), (4), (5) or (6);

(d) the maximum rate of speed posted in a construction zone designated under subsection (7); or

(e) the rate of speed prescribed for motor vehicles on a metropolitan road in accordance with section 83 of the Municipality of Metropolitan Toronto Act.

(2) The council of a municipality and the trustees of a police village may by by-law prescribe a rate of speed of 40, 50, 60, 70, 80, 90 or 100 kilometres per hour for motor vehicles driven on a highway or portion of a highway under its jurisdiction.

(3) The council of a municipality and the trustees of a police village may by by-law prescribe a lower rate of speed for motor vehicles driven in any public park or exhibition ground than is prescribed in subsection (1), but such lower rate of speed shall not be less than 20 kilometres per hour.

(4) The council of a municipality and the trustees of a police village may by by-law,

(a) designate a portion of a highway under its jurisdiction that adjoins the entrance to or exit from a school and that
(b) prescribe a rate of speed of 40 kilometres per hour for motor vehicles driven on the portion of a highway so designated on days on which school is regularly held and prescribe the time or times between the hours of 8.00 a.m. and 5.00 p.m. at which such speed limit is effective.

(5) The council of a municipality and the trustees of a police village may by by-law prescribe a lower rate of speed for motor vehicles passing over a bridge on a highway under its jurisdiction than is prescribed in subsection (1) or in a by-law passed under subsection (2), but such lower rate of speed shall not be less than 10 kilometres per hour and signs indicating the maximum rate of speed shall be posted in a conspicuous place at each approach to the bridge.

(6) The Minister may make regulations prescribing a rate of speed for,

(a) motor vehicles driven on a highway or portion of a highway within a provincial park;

(b) any class or classes of motor vehicles driven on the King's Highway or portion of the King's Highway whether or not the King's Highway is within a city, town, village or police village, and such rate of speed may be different for any period or periods of the day or night or direction of travel; and

(c) motor vehicles driven on a highway or portion of a highway in territory without municipal organization.

(7) An official of the Ministry authorized by the Minister in writing may designate any part of the King's Highway as a construction zone, and every construction zone shall be so marked by signs in accordance with the regulations.

(8) A designation under subsection (7) is not a regulation within the meaning of the Regulations Act.

(9) Signs posting the maximum rate of speed at which motor vehicles may be driven in a construction zone may be erected in accordance with the regulations by an official of the Ministry.

(10) No by-law passed under subsection (2), (4) or (5) or regulation made under clause (6) (c) becomes effective until the highway
(11) Where a by-law or regulation passed under this section or a by-law passed under section 83 of the *Municipality of Metropolitan Toronto Act* becomes effective, the rates of speed prescribed in subsection (1) do not apply to the highway or portion of the highway affected by the by-law or regulation.

(12) The speed limits prescribed under this section or any regulation or by-law passed under this section do not apply to,

(a) a motor vehicle of a municipal fire department while proceeding to a fire or responding to, but not returning from, a fire alarm or other emergency call; or

(b) a motor vehicle while used by a person in the lawful performance of his duties as a police officer.

(13) Every person who contravenes any of the provisions of this section or any by-law or regulation made under this section is guilty of an offence and on conviction is liable, where the rate of speed at which the motor vehicle was driven,

(a) is less than 20 kilometres per hour over the maximum speed limit, to a fine of $1.25 for each kilometre per hour that the motor vehicle was driven over the maximum speed limit;

(b) is 20 kilometres per hour or more but less than 40 kilometres per hour over the maximum speed limit, to a fine of $1.75 for each kilometre per hour that the motor vehicle was driven over the maximum speed limit;

(c) is 40 kilometres per hour or more but less than 60 kilometres per hour over the maximum speed limit, to a fine of $2.50 for each kilometre per hour that the motor vehicle was driven over the maximum speed limit; and

(d) is 60 kilometres per hour or more over the maximum speed limit, to a fine of $3.25 for each kilometre per hour that the motor vehicle was driven over the maximum speed limit.

(14) Where a court or judge has convicted a person for a contravention of any provision of this section and has determined that the person convicted was driving at a rate of speed of 50 or more kilometres per hour greater than the maximum speed limit, the court may suspend the driver's licence of such person for a period of not more than thirty days. 1980, c. 37, s. 14.
110. Upon the maximum permitted rate of speed in kilometres per hour being marked on the highways or portions thereof affected, the speed limits established under a by-law passed pursuant to section 109 that are expressed as a rate of speed in miles per hour set out in Column 1 of the Table shall be deemed to be the rate of speed in kilometres per hour set out opposite thereto in Column 2 of the Table.

113. No motor vehicle shall be driven on a highway at such a slow rate of speed as to impede or block the normal and reasonable movement of traffic thereon except when such slow rate of speed is necessary for safe operation having regard to all the circumstances. R.S.O. 1970, c. 202, s. 85.

PART IX

RULES OF THE ROAD

114.—(1) Where a constable or other police officer considers it reasonably necessary,

(b) to prevent injury or damage to persons or property; or

(c) to permit proper action in an emergency,

he may direct traffic according to his discretion, notwithstanding the provisions of this Part, and every person shall obey his directions. R.S.O. 1970, c. 202, s. 86.

(2) For the purposes of subsection (1), a constable or other police officer may close a highway or any part thereof to vehicles by posting or causing to be posted signs to that effect, or placing or causing to be placed traffic control devices as prescribed in the regulations.

(3) Where signs or traffic control devices have been posted or placed under subsection (2), no person shall drive or operate a vehicle on the closed highway or part thereof in intentional disobedience of the signs or traffic control devices.

(4) Subsection (3) does not apply to a vehicle or road-building machine while it is being used for maintenance of the highway or an ambulance, a fire department vehicle, a public utility emergency vehicle or a police vehicle.

(5) Every person using a highway closed to traffic in accordance with this section does so at his own risk and the Crown or road authority having jurisdiction and control of the highway is not liable for any damage sustained by a person using the highway so closed to traffic.
Regulations

(6) The Lieutenant Governor in Council may make regulations providing for the posting of signs and the placing of traffic control devices on any highway or any type or class thereof for the purposes of this section, and prescribing the types of signs and traffic control devices. 1978, c. 90, s. 9.

Right of way

115. Subject to sections 116 and 118, a driver or operator of a vehicle approaching an intersection shall yield the right of way to a vehicle that has entered the intersection from a different highway and, when two vehicles enter an intersection from different highways at approximately the same time, the driver or operator on the left shall yield the right of way to the vehicle on the right. R.S.O. 1970, c. 202, s. 87.

Stop at through highway

116. The driver or operator of a vehicle or car of an electric railway,

(a) upon approaching a stop sign at an intersection, shall bring the vehicle or car to a full stop at a clearly marked stop line or, if none, then immediately before entering the nearest crosswalk or, if none, then immediately before entering the intersection; and

(b) upon entering the intersection, shall yield the right of way to traffic in the intersection or approaching the intersection on another highway so closely that it constitutes an immediate hazard and having so yielded the right of way may proceed with caution and the traffic approaching the intersection on another highway shall yield the right of way to the vehicle so proceeding in the intersection. R.S.O. 1970, c. 202, s. 88.

Stop signs, erection at intersections

117. In addition to stop signs required at intersections on through highways,

(a) the council of a municipality and the trustees of a police village may by by-law provide for the erection of stop signs at intersections on highways under its jurisdiction; and

(b) the Minister may by regulation designate intersections on the King's Highway at which stop signs shall be erected,

and every sign so erected shall comply with the regulations of the Ministry. R.S.O. 1970, c. 202, s. 89; 1972, c. 1, s. 1; 1974, c. 123, s. 22; 1980, c. 71, s. 17.
Sec. 120 (2) (b)  HIGHWAY TRAFFIC  Chap. 198  729

118.—(1) The driver or operator of a vehicle or car of an electric railway approaching a yield right-of-way sign shall slow down to a speed reasonable for the existing conditions or shall stop if necessary as provided in clause 116 (a) and shall yield the right of way to traffic in the intersection or approaching on the intersecting highway so closely that it constitutes an immediate hazard and having so yielded may proceed with caution. R.S.O. 1970, c. 202, s. 90 (1).

(2) No yield right-of-way sign shall be erected except in compliance with the regulations. 1974, c. 123, s. 23.

119. The driver or operator of a vehicle about to enter or cross a highway from a private road or driveway shall yield the right of way to all vehicles approaching on the highway. R.S.O. 1970, c. 202, s. 91.

120.—(1) Subject to subsection (2), when a pedestrian or a person in a wheelchair crossing a roadway within a pedestrian crossover,

(a) is upon the half of the roadway upon which a vehicle or street car is travelling; or

(b) is upon half of the roadway and is approaching the other half of the roadway on which a vehicle or street car is approaching so closely to the pedestrian crossover as to endanger him,

the driver of such vehicle or street car shall yield the right of way to the pedestrian or a person in a wheelchair by slowing down or stopping if necessary. R.S.O. 1970, c. 202, s. 92 (1); 1974, c. 123, s. 24 (1).

(2) When a vehicle or street car is stopped at a pedestrian crossover, the driver of any other vehicle or street car overtaking the stopped vehicle or street car shall bring the vehicle or street car to a full stop before entering the crossover and shall yield the right of way to a pedestrian or a person in a wheelchair,

(a) who is within the crossover upon the half of the roadway upon which the vehicle or street car is stopped; or

(b) who is within the crossover and is approaching such half of the roadway from the other half of the roadway so closely to the vehicle or street car that he is in danger if the vehicle or street
car were to proceed.  R.S.O. 1970, c. 202, s. 92 (2); 1974, c. 123, s. 24 (2).

(3) When a vehicle or street car is approaching a pedestrian crossover and is within 30 metres thereof, the driver of any other vehicle or street car approaching from the rear shall not allow the front extremity of his vehicle or street car to pass beyond the front extremity of the other vehicle or street car. 1978, c. 90, s. 10.

(4) No pedestrian or person in a wheelchair shall leave the curb or other place of safety at a pedestrian crossover and walk, run or move the wheelchair into the path of a vehicle or street car that is so close that it is impracticable for the driver of the vehicle or street car to yield the right of way. 1974, c. 123, s. 24 (3).

121.—(1) In this section, “centre line” means,

(a) in the case of a highway on which traffic is permitted to move in opposing directions, the marked line or median that divides traffic moving in opposing directions on the highway or, where there is no marked line or median, the centre of the roadway; and

(b) in the case of a highway designated for the use of oneway traffic, the left curb or edge of the roadway.

(2) Where a driver or operator of a vehicle intends to turn to the right into an intersecting highway, he shall, where the highway on which he is driving has marked lanes for traffic, approach the intersection within the right-hand lane or, where it has no such marked lanes, by keeping immediately to the left of the right curb or edge of the roadway and he shall make the right turn by entering the right-hand lane of the intersecting highway where such lane is marked or, where no such lane is marked, by keeping immediately to the left of the right curb or edge of the roadway being entered.

(3) Notwithstanding subsection (2), where more than one lane of a highway has been designated as a right-turn lane, the driver or operator of a vehicle intending to turn to the right into an intersecting highway shall approach the intersection in one of such lanes and leave the intersection in the lane of the intersecting
highway that corresponds to the lane from which the turn was commenced.

(4) No driver or operator of a vehicle in an intersection shall turn left across the path of a vehicle approaching from the opposite direction unless he has afforded a reasonable opportunity to the driver or operator of the approaching vehicle to avoid a collision.

(5) Where a driver or operator of a vehicle intends to turn to the left into an intersecting highway, he shall, where the highway on which he is driving has marked lanes for traffic, approach the intersection within the left-hand lane provided for the use of traffic moving in the direction in which his vehicle is proceeding or, where it has no such marked lanes, by keeping immediately to the right of the centre line of the highway and he shall make the left turn by entering the intersection to the right of the centre line or its extension and by leaving the intersection in the left-hand lane provided for the use of traffic moving in the direction in which his vehicle is proceeding where such lane is marked or, where no such lane is marked, by passing immediately to the right of the centre line of the intersecting highway.

(6) Notwithstanding subsection (5), where more than one lane of a highway has been designated as a left-turn lane, the driver or operator of a vehicle intending to turn to the left into an intersecting highway shall approach the intersection in one of such lanes and leave the intersection in the lane of the intersecting highway that corresponds to the lane from which the turn was commenced.

1980, c. 37, s. 17.

122.—(1) The driver or operator of a vehicle upon a highway before turning to the left or right at any intersection or into a private road or driveway or from one lane for traffic to another lane for traffic or to leave the roadway shall first see that such movement can be made in safety, and if the operation of any other vehicle may be affected by such movement shall give a signal plainly visible to the driver or operator of such other vehicle of the intention to make such movement.

(2) The driver or operator of a vehicle parked or stopped on the highway before setting the vehicle in motion shall first see that the movement can be made in safety, and if in turning the vehicle the operation of any other vehicle may be affected by such movement, shall give a signal plainly visible to the driver or operator of such other vehicle of the intention to make such movement.

(3) The signal required in subsections (1) and (2) shall be given either by means of the hand and arm in the manner herein
specified or by a mechanical or electrical signal device as described in subsection (5).

(4) When the signal is given by means of the hand and arm, the driver or operator shall indicate his intention to turn,

(a) to the left, by extending the hand and arm horizontally and beyond the left side of the vehicle; or

(b) to the right, by extending the hand and arm upward and beyond the left side of the vehicle.

R.S.O. 1970, c. 202, s. 94 (1-4).

(5) A mechanical or electrical signal device shall clearly indicate the intention to turn, shall be visible and understandable during day-time and night-time from the front and from the rear of the vehicle for a distance of 30 metres, and shall be self-illuminated when used at any time from one-half hour after sunset to one-half hour before sunrise.

R.S.O. 1970, c. 202, s. 94 (5); 1977, c. 19, s. 7.

(6) No person while operating or in control of a vehicle upon a highway shall actuate the mechanical or electrical device referred to in subsection (5) for any purpose other than to indicate a movement referred to in subsection (1) or (2).

(7) The driver or operator of a vehicle upon a highway before stopping or suddenly decreasing the speed of the vehicle, if the operation of any other vehicle may be affected by such stopping or decreasing of speed, shall give a signal plainly visible to the driver or operator of such other vehicle of the intention to stop or decrease speed,

(a) by means of the hand and arm extended downward beyond the left side of the vehicle; or

(b) by means of a stop lamp or lamps on the rear of the vehicle which shall emit a red or yellow light and which shall be actuated upon application of the service or foot brake and which may or may not be incorporated with one or more rear lamps.

R.S.O. 1970, c. 202, s. 94 (6, 7).

123. No driver or operator of a vehicle upon a highway shall turn the vehicle so as to proceed in the opposite direction when,
(a) upon a curve where traffic approaching the vehicle from either direction cannot be seen by the driver of the vehicle within a distance of 150 metres;

(b) on a railway crossing or within 30 metres of a railway crossing;

(c) upon an approach to or near the crest of a grade where the vehicle cannot be seen by the driver of another vehicle approaching from either direction within 150 metres; or

(d) within 150 metres of a bridge, viaduct or tunnel where the driver’s view is obstructed within such distance. 1977, c. 19, s. 8.

124.—(1) In this section,

(a) “emergency vehicle” means,

(i) a fire department vehicle while proceeding to a fire or responding to, but not returning from, a fire alarm or other emergency call,

(ii) a vehicle while used by a person in the lawful performance of his duties as a police officer.

(iii) an ambulance while responding to an emergency call or being used to transport a patient or injured person in an emergency situation, or

(iv) a cardiac arrest emergency vehicle operated by or under the authority of a hospital;

(b) “intersection” includes any portion of a highway distinctly indicated as a crossing place for pedestrians by lines or other markings on the surface of the highway. 1979, c. 57, s. 10 (1); 1979, c. 103, s. 7.

(2) Green arrow, green, amber and red lights may be used for signal-light traffic control systems and such lights shall be arranged vertically in the following order commencing at the bottom, green arrow, green, amber and red.

(3) When a green signal-light is shown at an intersection, the driver or operator of a vehicle or car of an electric railway that is approaching the intersection and facing such light may proceed across the intersection or turn left or right.
(4) When a green light illuminated by rapid intermittent flashes is shown at an intersection, the driver or operator of a vehicle or car of an electric railway that is approaching the intersection and facing such light may, notwithstanding subsection 121 (4), proceed across the intersection or turn left or right. R.S.O. 1970, c. 202, s. 96 (2-4).

(5) When a red signal-light is shown at an intersection, every driver or operator of a vehicle or car of an electric railway that is approaching the intersection and facing such light shall bring his vehicle or car to a full stop at a clearly marked stop line or, if none, then immediately before entering the nearest crosswalk or, if none, then immediately before entering the intersection, and shall not proceed until a green light is shown, but the driver or operator may, after bringing the vehicle or car to a full stop,

(a) turn to the right; or

(b) turn to the left from a one-way street into a one-way street. 1978, c. 90, s. 11 (1).

(6) Notwithstanding subsection (5), where an emergency vehicle, upon which a siren is continuously sounding and upon which a lamp is producing intermittent flashes of red light visible from all directions, is brought to a full stop at a red signal-light, the driver of the emergency vehicle may, after ascertaining that such movement can be made in safety, proceed through the intersection without waiting for a green signal-light to be shown. 1979, c. 57, s. 10 (2).

(7) When an amber signal-light is shown at an intersection, the driver or operator of a vehicle or car of an electric railway that is approaching the intersection and facing such light shall bring his vehicle or car to a full stop at a clearly marked stop line or, if none, then immediately before entering the nearest crosswalk or, if none, then immediately before entering the intersection, provided that, where any such vehicle or car cannot be brought to such a stop in safety, it may be driven cautiously across the intersection.

(8) Where a red signal-light illuminated by rapid intermittent flashes is shown at an intersection, the driver or operator of a vehicle or car of an electric railway that is approaching the intersection and facing such light shall bring his vehicle or car to a full stop at a clearly marked stop line or, if none, then immediately before entering the nearest crosswalk or, if none, then immediately before entering the intersection, and, upon entering the inter-
section, shall yield the right of way to traffic in the intersection or approaching the intersection on another highway so closely that it constitutes an immediate hazard and having so yielded the right of way may proceed with caution and the traffic approaching the intersection on another highway shall yield the right of way to the vehicle so proceeding in the intersection.

(9) When an amber light illuminated by rapid intermittent flashes is shown at the intersection, the driver or operator of a vehicle, or a car of an electric railway, which is approaching the intersection and facing such light, may proceed through the intersection only with caution.

(10) When a red signal-light with a green arrow is shown at an intersection, the driver or operator of a vehicle, or a car of an electric railway, which is approaching the intersection and facing such light, may proceed with caution into the intersection only to make the movement indicated by such arrow, but shall yield the right of way to pedestrians and other traffic lawfully using the intersection. R.S.O. 1970, c. 202, s. 96 (6-9).

(11) Where a signal-light traffic control system shows a green arrow without the red signal-light illuminated at an intersection, the driver or operator of a vehicle or car of an electric railway that is approaching the intersection and facing the arrow may proceed into the intersection only to follow the direction indicated by the arrow. 1978, c. 90, s. 11 (2).

(12) When under this section the driver or operator of a vehicle or car of an electric railway is permitted to turn left or right, such driver or operator shall yield the right of way to pedestrians and other traffic lawfully within the intersection and to pedestrians or any person in a wheelchair lawfully within a crosswalk.
